

GLOBAL HEALTH MPH

The Department of Global Health's mission is to improve health for all through research, education, training and service; to understand and address the causes of disease and health inequities at multiple levels; and to collaborate with partners to develop and sustain locally led, quality health systems, programs, and policies.

At the University of Washington, diversity is integral to excellence. we value and honor lived experience and diverse perspectives, strive to create welcoming and respectful learning environments, and promote access, opportunity and justice for all.

PROGRAM HIGHLIGHTS

Through coursework and dialogue, students gain a deeper understanding of the social, economic, and political determinants of health and the history of global responses to health problems while gaining core public health skills in research; analytic methods; leadership, policy and management; implementation science; and health metrics and evaluation. Strengths of the program include:

- social justice, anti-racist, and de-colonizing frameworks
- practical, skills-based curricula
- partnerships with organizations locally and around the world
- small, collaborative cohorts
- faculty who combine teaching, research, and practice

APPLICATION TIMELINE

September 1 - December 1
Decisions conveyed in Mid-February
Autumn Quarter Entry Only
